

**News Flash - Test Your Medicare Claims Now!** After you have submitted claims containing both National Provider Identifiers (NPIs) and legacy identifiers and those claims have been paid, Medicare urges you to send a small batch of claims now with only the NPI in the primary provider fields. If the results are positive, begin increasing the number of claims in the batch. (Reminder: For institutional claims, the primary provider fields are the Billing and Pay-to Provider fields. For professional claims, the primary provider fields are the Billing, Pay-to, and Rendering Provider fields. If the Pay-to Provider is the same as the Billing Provider, the Pay-to Provider does not need to be identified.)

## New Waived Tests

### Provider Types Affected

Physicians, providers and suppliers who bill Medicare Carriers or Part A/B Medicare Administrative Contractors (A/B MACs) for clinical diagnostic laboratory services.

### What You Need to Know

The list of tests approved by the Food and Drug Administration (FDA) as waived tests under the Clinical Laboratory Improvement Amendments of 1988 (CLIA) has been updated.

### Background

CLIA regulations require a facility to be appropriately certified for each test they perform. Laboratory claims are edited at the CLIA certificate level in order to ensure the Centers for Medicare & Medicaid Services (CMS) pay only for laboratory tests categorized as waived complexity under CLIA by facilities with a CLIA certificate of waiver.

***News Flash*** - It's Not Too Late to Give and Get the Flu Shot! In the U.S., the peak of flu season typically occurs anywhere from late December through March; however, flu season can last as late as May. Each office visit presents an opportunity for you to talk with your patients about the importance of getting an annual flu shot and a one time pneumococcal vaccination. Protect yourself, your patients, and your family and friends by getting and giving the flu shot. **Don't Get the Flu. Don't Give the Flu. Get Vaccinated!** Remember - Influenza and pneumococcal vaccinations and their administration are covered Part B benefits. Note that influenza and pneumococcal vaccines are NOT Part D covered drugs. You and your staff can learn more about Medicare's coverage of adult immunizations and related provider education resources, by reviewing Special Edition MLN Matters article SE0748 at <http://www.cms.hhs.gov/MLNMattersArticles/downloads/SE0748.pdf> on the CMS website.
